

STEP UP

Be proactive!

• AIM: How can we find a way to encourage sustainable practises on campus?

The approach:

- Link their account to their **Strava** account
- •Automatically log their recent walking activities on and around campus
- Follow their friends to view their activites
- Score points and compete on leaderboards upon completing activites
- • Grow their garden the more they play
- Become a member of a more sustainable community

STACK

• Frontend:

• React, HTML, CSS, JavaScript

• Backend:

- Firebase (BaaS)
 - (third party) handling authentication, Hosting, Realtime Database services

• Why this stack?

- enable quick development as to iterate diff mvps
- o realtime database NoSQL
- intergrated ecosystem
- o pricing, not expected large amounts of customers so pricing is good

PROCESS

Lorem ipsum dolor sit
